2021 Aug. 17 America’s Triple Betrayal of Afghan Friends - And interview with a survivor in Kabul
This is the true story of the United States’ triple betrayal of friends in Afghanistan starting with how and why the US lured the Soviets into their invasion in 1979. This article also contains an interview with one Afghan friend in Kabul August 17th, and some friendly practical advice for both modernist friends in Afghanistan and the Taliban leadership gleaned from the Quran, history, and practical experience.

2021 Aug. 13 Medieval America – Torturing and Murdering Heretical Scientists,
Reporters and the Poor - In this article the writer posits that most of the world today is deeply mired in a replay of the Medieval Era as the result of increasingly widespread political corruption and corporate control over news and entertainment media. Increasing corporate control of news and entertainment media orchestrated by national and international intelligence organizations appears to have reduced individual freedoms to below zero in most countries. This “problem” has also led to what can be termed “fake democracies” in that intelligence organizations, via corporate controlled news organizations can determine who runs for elections and who wins those elections.

2021 July 13  **Shut Down the CIA’S Pied Piper Program – It’s time to stop China bashing especially in educational institutions**, by Greg Brundage July 13, 2021, Silk Road Virtual University

The American disinformation machine is illegal interference in the affairs of other nations. It is illegal by American and international law. I was looking through the internet sites of some foreign universities in China recently and found links to disturbing American government funded articles that are part of the "Color Revolution" movement the US has used in many countries to overthrow governments. In this article I refer to the original template program called "Pied Piper." It's been "upgraded" but it's the same illegal interference in other nations. Generally speaking, during the 1st Cold War there were some rules, like keeping families out of it at least most of the time. This new American driven Cold War takes direct aim at families. It is concluded Americans with a moral conscience need to be much more politically active to end these horrible abuses of power and waste of American tax payer money. Cutting the world in two is not a solution to problems in the USA. The US has to fix itself before preaching to other nations how to govern their own nations, and attacking families and youth is vile and illegal.

2021, June 25  **A Brief Review of American Censorship Mechanisms and Laws**

Prohibiting It - *Censorship is the death knell of democracy*. This article reviews most of the above-surface US government and government affiliated organizations and mechanisms used to censor the news, followed by a review of Constitutional, statutory, and case law including SCOTUS decisions prohibiting censorship of the news. This article is the most complete and succinct review of those censorship mechanisms and laws, with linked references published to date. It was written in such a way as to motivate the Supreme Court to reverse its decision in *Citizens United vs. FEC*, overturn subsequent decisions that have resulted in Super-PAC unlimited anonymous campaign finance “donations,” and issue a cease-
and-desist order on current censorship organizations. Additional motivation is provided by a glimpse into how SCOTUS will be remembered in history if they fail to act quickly.

2021, June 25  **If you smile at me – A Reminder for Americans - From an American in China.** In this short article I quote some ‘60s songs, Wooden Ships (1969) by Crosby, Stills and Nash, "For What It's Worth" (1966) by Buffalo Springfield and What a Wonderful World by Louis Armstrong (1967). "Paranoia strikes deep into your hearts it will creep..." There’s a lot to be learned from that anti-war movement and its music.

2021, June 22  **Euro Americas’ criminal leadership and the Chinese Bogeyman** – This article looks at the rapidly escalating American and NATO aggression and potential war against China, the responsible parties and some possible realistic ways to short-circuit those systems. After finishing the previous article, I noticed an NYT article that appeared to be engaging in psychological operations to prepare Americans for a war against China. Then I realized: Most of the promoters of war are not “mentally ill,” but rather simple profit motivated criminals. What to do about them? In this article I suggest the Supreme Court, the US Attorney General, and possibly Pope Francis could play a positive role in ending American wars of aggression against innocent countries. It is concluded that reopening Château d’If Prison to house the most recalcitrant criminals might be warranted, which by the way is an absurd but humorous suggestion if one knows the history of that particular prison. Given a choice between the very humane therapy in my June 17th article, and the more dire consequences of continuing their criminal careers, one might think the former the far more attractive option.

2021, June 17 Treatment Plan for Euro-American Leaders’ Pathological Greed and the Hate Pandemics They Cultivate to Feed it – A novel humanistic approach to educating/deprogramming western politicians, and the corporate, intelligence and media elite as an alternative to increasing economic polarization, starvation, war and global ruin. This psychotherapeutic treatment plan involves determining baseline pre-test levels of greed, prejudice, psychopathy and sadism, and a treatment involving both systematic desensitization and immersion learning as well as post-test evaluation.

2021, June 9 Proposal for Cyber-Based New Just-United-Nations-Assembly
There is a lot most people don’t know about the details of the internal structure of the UN like the fact it was designed to be a failure at keeping the peace from the beginning. Instead, it was designed as a tool of western hegemonic expansion. If the reader doesn’t believe it, read this proposal and check the original UN Charter. This is a project proposal to streamline UN systems, give it the opportunity to self-correct if possible or replace it with the very low budget, highly efficient model briefly presented in this proposal.
